

University Regulations:

1. The age range for international student admission is 18 to 25 years for bachelor's degrees and up to 35 years for master's degrees.
2. Classes are held in person, and student attendance is mandatory. Failure to attend classes and exams will be reported to the consulate, and consequences will be the student's responsibility.
3. Students with low grades or GPA below 14 will be reported to the consulate, and decisions will be made according to consulate regulations.
4. Educational and academic issues and passing courses are not related to the international unit. All academic matters are the responsibility of the university's education unit.
5. After visa issuance, students must reside only in Mashhad; residing in another city will invalidate their residency.
6. The Ferdowsi University Consulate has access to all educational and academic information, attendance records, and student status is thoroughly reviewed before issuing residency.
7. At the beginning of each semester, students must register for courses and follow the academic calendar through the university's website or Telegram channel. Failure to register on time will result in consequences for the student.
8. In case of withdrawal or expulsion, students must settle previous term debts and pay a withdrawal fee according to university regulations.
 - Bachelor's: one fixed tuition + 16 variable units
 - Master's: one fixed tuition + 8 variable units

9. Students can exit and re-enter only three times in one academic year. Employed students (government jobs) can visit the consulate with a letter from their relevant organization. (Frequent exits and re-entries will be reviewed and approved or rejected by the consulate.)
10. Students must notify the international unit before leaving the country or city.
11. Misuse of student residency (solely for entering Iran, etc.) will be legally pursued by the consulate.
12. In case of withdrawal or expulsion from the university, students are not allowed to enter Iran or enroll in another university for one semester.
13. If registered at one university, do not apply to another. This causes non-issuance of a visa due to an active code in another university.
14. Requests for academic leave or term withdrawal are not possible unless the student's GPA is above 17 or the request is approved by the consulate commission.
